PROFESSIONAL SUMMARY

AI Solutions Architect and Team Lead with 4+ years delivering production AI systems for enterprise clients. Lead a team of 7 engineers building document intelligence, RAG pipelines, and agentic AI solutions across PE firms, manufacturing, and SaaS. Own 15 internal AI products including enterprise chat platform and MCP integrations. Key achievement: contract extraction system reduced processing from 260 hours to 26 minutes (99% reduction), cutting costs 15x vs GPT-4 approach. Won 5 client deals through technical pre-sales and solution architecture.

TECHNICAL SKILLS

AI & Machine Learning:	LangChain, LangGraph, RAG Architecture, Agentic Workflows, Azure OpenAI, Claude/Anthropic, AWS Bedrock, PaddleOCR, Vector Databases (pgvector, Azure AI Search)
Cloud & Infrastructure:	Azure AI Foundry, Microsoft Fabric, AWS (SageMaker, Bedrock), Docker, Kubernetes, Terraform, GitHub Actions
Programming:	Python, TypeScript, FastAPI, React, Node.js, SQL, C#
Data & MLOps:	dbt, PostgreSQL, Redshift, Power BI, Azure Data Factory, Langfuse, MLflow
Enterprise Integration:	SharePoint, Salesforce, Azure DevOps, Microsoft Graph, Copilot Studio, MCP Protocol
Architecture & Security:	API Gateway Design, RBAC, Data Privacy (GDPR), Enterprise AI Governance, SOC 2 Compliance

PROFESSIONAL EXPERIENCE

AI Solutions Architect & Team Lead

Oct 2025 – Present

Consulting Firm · Chennai (Remote UK/US Clients)

Lead Cluster 5 (7 engineers) in AI Centre of Excellence. Own internal AI products, architect client solutions, drive technical pre-sales.

Architecture & Delivery

- Architected enterprise-wide RAG knowledge retrieval system using Azure OpenAI and pgvector, enabling 200+ employees to securely query internal documents with RBAC enforcement
- Designed custom MCP server extending Microsoft Fabric with Excel export and dashboard generation, deployed on Azure Container Apps with Key Vault integration
- Led PE firm AI context layer implementation using Claude Enterprise + MCP, supporting investment committee workflows with citation tracking and audit trail

Leadership & Pre-Sales

- Manage 7 engineers across 4 concurrent client projects (PE firms, manufacturing, SaaS)
- Won 5 deals through solution architecture and technical pre-sales; created proposals, SOWs, architecture documentation
- Conducted 16 candidate interviews; performance reviews and career development for 4 direct reports

Products Owned (15 total)

- **Enterprise AI Assistant:** Multi-model chat platform with SharePoint, Power BI, CRM integration serving 200+ users
- **AI Backend Platform:** Governed multi-LLM orchestration with workspace isolation and audit logging
- **Consulting Agent:** Memory-driven assistant using LangGraph, MCP, Teams/DevOps connectors
- Plus: Power BI Semantic Assistant, AI Data Dictionary, MCP Integrations Accelerator, AI Playbook

AI Engineer → Product Lead

Apr 2024 – Oct 2025

Same Firm

Contract Intelligence Platform (Key Achievement)

- Architected document extraction pipeline processing 200-page contracts with nested tables using PaddleOCR + Qwen 7B, reducing manual effort from 260 hours to 26 minutes (99% reduction)
- Implemented confidence-based human routing at 85% threshold, achieving 85% straight-through automation
- Reduced per-page cost from $0.03 (GPT-4 Vision) to $0.002 through vendor evaluation and hybrid-model approach
- Grew engagement from 4-week PoC to 6-month production deployment

Other Delivery

- Designed AI architecture for PE firm investment workflows using Claude Enterprise + MCP
- Built contract insights chatbot integrating document processing with conversational AI
- Launched enterprise chat platform core epic (Nov 2024); built AI backend architecture

Data Engineer

Apr 2023 – Apr 2024

Same Firm

- Implemented medallion architecture data platform processing 5M+ records daily using dbt, Redshift, Azure Data Factory
- Designed SCD Type 2 implementation across 20+ entities for compliance audit requirements
- Built data quality monitoring reducing data incidents by 40%

Software Engineer

Feb 2022 – Apr 2023

Same Firm

Built RESTful APIs using Node.js, NestJS, FastAPI serving 1M+ daily requests. Implemented Docker-based CI/CD reducing release cycle by 60%.

Full Stack Developer

2017 – 2022

Various Companies · Chennai

Enterprise systems development using C#, .NET, SQL Server for retail and financial services sectors.

PROOF OF CONCEPTS & HACKATHONS

SapienSync | Talent Recommendation Engine

AI PoC

- Built AI recommendation engine ranking best-fit employees for open roles using 6-step pipeline: intake normalization, COE detection, semantic skill matching, weighted scoring, LLM enrichment, knowledge-base validation
- Implemented weighted scoring (Skill 40%, Competency 25%, Availability 25%, Productivity 10%) with GPT-4o rationale generation and LLM re-ranking using 1536-dimensional embeddings and pgvector ANN search
- Built parallel GPT-4o enrichment using Python asyncio.gather() for concurrent processing across top 10 candidates
- Developed 5 forecasting models using Holt-Winters exponential smoothing, achieving 4.4% MAPE with P10/P50/P90 confidence bands

Lead Generation Network | UK PE Sales Intelligence

Hackathon 2024

- Built lead-generation pipeline targeting UK PE firms sourcing from Companies House, FCA Register, web/news scraping
- Implemented Medallion Architecture (Bronze/Silver/Gold) with entity resolution, PE ownership detection, CRM-ready outputs
- Used GPT-4o-mini for enrichment; weighted lead scoring; Power BI star-schema dashboards for sales intelligence

EDUCATION

MCA (Master of Computer Applications) · University of Madras · 2017 – 2020

BCA (Bachelor of Computer Applications) · Jairam Arts and Science College · 2014 – 2017

AWARDS & PUBLICATIONS

- Equity stakeholder in current company (shares awarded for contribution)
- 2× Hackathon 3rd place finishes
- Published: "Contract Intelligence at Scale: How OCR-LLM Turned 260 Hours Into 26 Minutes" — Medium

Notice Period: 60–90 days · **Work Authorisation:** Open to UK/US sponsored visa
