SATHISH KUMAR V

AI Architect & Team Lead | LLM Systems | RAG Architecture | Agentic AI

Chennai, India | +91 8056770991 | sathishkumar05@gmail.com
LinkedIn | GitHub | Medium | Portfolio

PROFESSIONAL SUMMARY

AI COE Team Lead managing 6-7 engineers while driving enterprise AI strategy. 6+ years of progressive expertise building production-grade AI systems, LLM applications, and intelligent automation. Product owner for 5+ internal AI platforms serving 200+ employees. Delivered 13+ client AI projects and 15+ internal AI products. Achieved 99% processing time reduction (260 hours → 26 minutes) with 85-90% automation rates. Won 5+ enterprise sales opportunities through solution architecture and technical pre-sales. Expert in Azure AI Foundry, AWS Bedrock, LangChain/LangGraph, MCP (Model Context Protocol), and RAG architectures.

TECHNICAL SKILLS

AI & LLM:	Azure AI Foundry • AWS Bedrock • LangChain • LangGraph • RAG • Agentic AI • MCP • Copilot Studio • Microsoft Fabric AI • Databricks Agents • OpenAI • Claude • Prompt Engineering
Document Intelligence:	PaddleOCR • Azure Document Intelligence • Amazon Textract • PDF/Table Extraction
Vector Databases:	Chroma DB • PostgreSQL pgvector • Azure Cognitive Search • Pinecone
Programming:	Python • TypeScript • JavaScript • C#
Full Stack:	FastAPI • Next.js • React • Angular • Node.js • NestJS • .NET Core
Data Engineering:	dbt • Microsoft Fabric • Amazon Redshift • PostgreSQL • Azure Data Factory • Databricks • Power BI
Cloud & DevOps:	Azure • AWS • Docker • Terraform • GitHub Actions • Git

PROFESSIONAL EXPERIENCE

JMAN Group, Chennai

Feb 2022 – Present (4+ years)

AI COE Team Lead & Solutions Consultant

Oct 2025 – Present

- Lead AI Center of Excellence cluster team of 6-7 engineers, driving AI strategy and delivery across the organization
- Product owner for enterprise AI assistant platform serving 200+ employees with integrated knowledge, BI, and document intelligence
- Won 5+ sales opportunities (enterprise AI platforms, DTaaS, AI context layers) through solution architecture and technical pre-sales
- Created AI Playbook—comprehensive architecture guide covering RAG, agents, multi-agent systems, MCP, LLMOps
- Led AI governance and compliance reviews including EU AI Act and GDPR considerations
- Conducted 16+ technical interviews for AI engineering roles, building high-performing teams

Solution Enabler

Apr 2024 – Oct 2025

- Product lead and technical owner for private AI platform—foundation for enterprise AI products with multi-LLM support
- Led Contract Intelligence project achieving 99% processing time reduction (260 hours → 26 minutes) with 85-90% automation rate
- Architected AI context layer for PE firm enabling investment workflow automation with Claude Enterprise and MCP
- Created custom MCP server for Microsoft Fabric with Excel export and dashboard capabilities beyond native Fabric Data Agent
- Led AI workstream for BOM Entry Automation achieving 95%+ required-field extraction accuracy across 5+ document types
- Built Intelligent Query solution making Power BI semantic models AI-ready for conversational analytics

Senior Software Engineer

Apr 2023 – Apr 2024

- Built medallion architecture data platform processing 5M+ records daily with optimized Redshift models
- Developed data models in Amazon Redshift and SQL Server with SCD Type 2 implementation
- Implemented automated data quality checks ensuring 99.5% data integrity across pipelines

Software Engineer

Feb 2022 – Apr 2023

- Developed RESTful APIs using Node.js, NestJS, and FastAPI
- Implemented ETL pipelines with Azure Data Factory processing 1M+ records daily
- Built containerized deployments using Docker reducing deployment time by 60%

Previous Experience

Jul 2017 – Feb 2022

- **Elroi Software Solutions** (Sep 2021 – Feb 2022): Full Stack Developer - Enterprise applications with C#, .NET, SQL Server
- **Qserve UAE** (Aug 2020 – Nov 2020): Full-Stack Developer - Retail Management System with .NET Core
- **RmKV Computask** (Jul 2017 – Aug 2018): Software Developer - Enterprise ERP for 20+ locations

KEY PROJECTS

Contract Intelligence Platform | Enterprise Client

Technical Lead | Project grew from 3-4 week PoC to 6-month engagement

- Reduced manual processing from 260 hours to 26 minutes—99% time reduction with <1% error rate
- Built multi-stage pipeline using PaddleOCR and Qwen SLM for complex table extraction from 200-page contracts
- Deployed GPU-accelerated inference on AWS EC2 with S3 storage and Salesforce integration

Tech: Python, FastAPI, PaddleOCR, Qwen SLM, AWS EC2 GPU, S3, Salesforce, MongoDB

Enterprise AI Assistant Platform | Internal Product

Product Owner & Lead Architect | Serving 200+ employees

- Product owner for secure AI platform—private ChatGPT alternative with integrated knowledge, BI, and document intelligence
- Integrated with SharePoint, Power BI, DevOps, and CRM; implemented Fabric Data Agent for conversational analytics

Tech: React, TypeScript, Azure OpenAI, Azure Cognitive Search, PostgreSQL, MCP, Microsoft Fabric

AI Context Layer for Private Equity | PE Firm Client

AI Solution Architect | Won engagement through RFP response

- Designed AI context layer enabling investment workflow automation with Claude Enterprise and custom MCP tool layer
- Enabled context-aware IC (Investment Committee) analysis workflows

Tech: Azure AI, Claude Enterprise, MCP, LangGraph, Enterprise Search

Custom MCP Server for Microsoft Fabric | Internal Product

Creator & Technical Lead

- Extended Fabric capabilities beyond native Fabric Data Agent—Excel export, dashboards, AI client connectivity
- Deployed on Azure Container Apps with Key Vault and Entra ID authentication

Tech: MCP, Microsoft Fabric, Azure Container Apps, Python, Claude

LEADERSHIP & ACHIEVEMENTS

- **Team Leadership:** Managing 6-7 engineers in AI COE cluster with mentoring, appraisals, and career development
- **Product Ownership:** 5+ internal AI platforms including enterprise AI assistant and private AI backend
- **Sales Impact:** Won 5+ enterprise opportunities through solution architecture and technical pre-sales
- **Knowledge Sharing:** Created AI Playbook, delivered 10+ internal training sessions on AI architecture
- **Recognition:** Performance-linked bonus (PLI) FY2024-25; 2x hackathon 3rd place finishes

EDUCATION

Master of Computer Applications (MCA) | University of Madras IDE | 2017-2020 | 70%

Bachelor of Computer Applications (BCA) | Jairam Arts and Science College | 2014-2017 | 66%
