## PROFESSIONAL SUMMARY

AI Solutions Architect and Team Lead with 4+ years shipping production AI systems for enterprise clients. Lead a team of 7 engineers delivering document intelligence, RAG pipelines, and agentic AI solutions across PE firms, manufacturing, and SaaS. Own 15 internal AI products including enterprise chat platform and MCP integrations. Proven track record: contract extraction system reduced processing from 260 hours to 26 minutes (99% reduction) while cutting costs 15x vs GPT-4 approach. Won 5 client deals through technical pre-sales and solution architecture.

## TECHNICAL SKILLS

| | |
|---|---|
| **AI/ML:** | LangChain, LangGraph, RAG Architecture, Agentic Workflows, Azure OpenAI, Claude/Anthropic, AWS Bedrock, PaddleOCR, Vector Databases |
| **Cloud & Infrastructure:** | Azure AI Foundry, Microsoft Fabric, AWS (SageMaker, Bedrock), Docker, Kubernetes, Terraform, GitHub Actions |
| **Languages & Frameworks:** | Python, TypeScript, FastAPI, React, Node.js, SQL, C# |
| **Data & MLOps:** | dbt, PostgreSQL, Redshift, Power BI, Azure Data Factory, Langfuse |
| **Enterprise Integration:** | SharePoint, Salesforce, Azure DevOps, Microsoft Graph, Copilot Studio, MCP Protocol |
| **Architecture & Security:** | API Gateway Design, RBAC, Data Privacy (GDPR), Enterprise AI Governance |

## PROFESSIONAL EXPERIENCE

### AI Solutions Architect & Team Lead

Oct 2025 – Present

Consulting Firm · Chennai (Remote UK/US Clients)

Lead Cluster 5 (7 engineers) in AI Center of Excellence. Own internal AI products, architect client solutions, drive technical pre-sales.

**Architecture & Delivery**

- Architected enterprise-wide RAG knowledge retrieval system using Azure OpenAI and pgvector, enabling 200+ employees to securely query internal documents with RBAC enforcement
- Designed custom MCP server extending Microsoft Fabric with Excel export and dashboard generation, deployed on Azure Container Apps with Key Vault integration
- Led PE firm AI context layer implementation using Claude Enterprise + MCP, supporting investment committee workflows with citation tracking and audit trail

**Leadership & Pre-Sales**

- Manage 7 engineers across 4 concurrent client projects (PE firms, manufacturing, SaaS)
- Won 5 deals through solution architecture and technical pre-sales; created proposals, SOWs, architecture decks
- Conducted 16 candidate interviews; performance reviews and career development for 4 direct reports

**Products Owned (15 total)**

- **Enterprise AI Assistant:** Multi-model chat platform with SharePoint, Power BI, CRM integration
- **AI Backend Platform:** Governed multi-LLM orchestration with workspace isolation
- **Consulting Agent:** Memory-driven assistant using LangGraph, MCP, Teams/DevOps connectors
- Plus: Power BI Semantic Assistant, AI Data Dictionary, MCP Integrations Accelerator, AI Playbook

### AI Engineer → Product Lead

Apr 2024 – Oct 2025

Same Firm

**Contract Intelligence Platform (Key Achievement)**

- Architected document extraction pipeline processing 200-page contracts with nested tables using PaddleOCR + Qwen 7B, reducing manual effort from 260 hours to 26 minutes (99% reduction)
- Implemented confidence-based human routing at 85% threshold, achieving 85% straight-through automation
- Reduced per-page cost from $0.03 (GPT-4 Vision) to $0.002 through vendor evaluation and hybrid-model approach
- Grew engagement from 4-week PoC to 6-month production deployment

**Other Delivery**

- Designed AI architecture for PE firm investment workflows using Claude Enterprise + MCP
- Built contract insights chatbot integrating document processing with conversational AI
- Launched enterprise chat platform core epic (Nov 2024); built AI backend architecture

### Data Engineer

Apr 2023 – Apr 2024

Same Firm

- Implemented medallion architecture data platform processing 5M+ records daily using dbt, Redshift, Azure Data Factory
- Designed SCD Type 2 implementation across 20+ entities for compliance audit requirements
- Built data quality monitoring reducing data incidents by 40%

**Software Engineer** Feb 2022 – Apr 2023

Same Firm

Built RESTful APIs using Node.js, NestJS, FastAPI serving 1M+ daily requests. Implemented Docker-based deployments reducing release cycle by 60%.

**Full Stack Developer** 2017 – 2022

Various Companies · Chennai

Enterprise systems development using C#, .NET, SQL Server for retail and services sectors.

## EDUCATION

**MCA (Master of Computer Applications)** · University of Madras · 2017 – 2020

**BCA (Bachelor of Computer Applications)** · Jairam Arts and Science College · 2014 – 2017

## AWARDS & RECOGNITION

- Performance Bonus (PLI) FY2024-25 for exceptional delivery
- 2× Hackathon 3rd place finishes
- Enterprise AI platform presented to executive leadership with positive roadmap approval

## PROOF OF CONCEPTS & HACKATHONS

**SapienSync | Talent Recommendation Engine** RMG Automation / AI POC

- Built AI recommendation engine to rank best-fit employees for open roles, generating match rationales from pipeline deals and resourcing requests
- Designed 6-step pipeline: intake normalization, COE detection, semantic skill matching, weighted scoring, LLM enrichment, knowledge-base validation using SQL, GPT-4o, 1536-dimensional embeddings, pgvector ANN search
- Implemented weighted scoring: Skill (40%), Competency (25%), Availability (25%), Productivity (10%) with GPT-4o rationale generation and LLM re-ranking
- Built parallel GPT-4o enrichment using Python asyncio.gather() for concurrent rationale generation across top 10 candidates
- Developed 5 forecasting models (revenue, cluster allocation, FTE/hiring, project count, COE supply-vs-demand) using Holt-Winters, achieving 4.4% MAPE with P10/P50/P90 confidence bands

**Lead Generation Network | UK PE Sales Intelligence** Company Hackathon 2024

- Built lead-generation pipeline targeting UK PE firms and portfolio companies from Companies House, FCA Register, web/news scraping
- Implemented Medallion Architecture (Bronze/Silver/Gold) with entity resolution, PE ownership detection, enrichment, CRM-ready outputs
- Used GPT-4o-mini for data enrichment; weighted lead scoring to rank companies by prospect value
- Developed Power BI star-schema dashboards and CRM-ready exports for sales intelligence
